GMO STATEMENT

This certificate is valid for 2019

This is to certify that all commodities and value-add products processed, packed or distributed by Freshway Foods are products of natural origin and are not derived from genetically modified organisms (GMO).

At this time, our growers do not supply us with any genetically modified fresh produce items. Furthermore, we are not actively seeking or using GMO products in the commodities or value-add products we ship to our customers. In the event that we find it necessary to modify this policy, we will notify our customers of the change before the first shipment of genetically modified cultivars.

If you have any questions about this certification or our GMO policy, please feel free to contact Freshway Foods directly.

Certified,

Tiffany Carnes

FSQA Manager
